

Small, Lightweight !

It has been the famous pump in JAPAN with it's outstanding durability!!

Electric Hydraulic Pump

DSPN-120

Discharge : 0.20l/min Solenoid valve switching type
(With High Pressure Hose 2Mtr)

Ram cylinder can be forward • backward •
pressure retention freely by operation remote control switch.

Item No.		DSPN 120					
Motor			Pump				
Voltage	Output	Current	Low		High		
V	W	A	Discharge ℓ/min	Pressure MPa	Discharge ℓ/min	Pressure MPa	
100	300	5.6	2.2	0.35	0.20	70	
Tank Capacity			1.2 ℓ				
Dimension			L 245× H 280× W 145 mm				
Weight			10.0 kg				

DSPN-120

DSP-124

Discharge : 0.17l/min Auto return type
(With High Pressure Hose 2Mtr)

With Automated return device which function is ram cylinder action ,
the pressure increases while the button is pressed and decreases
when the button is released.

Item No.		DSP-124					
Motor			Pump				
Voltage	Output	Current	Low		High		
V	W	A	Discharge ℓ/min	Pressure MPa	Discharge ℓ/min	Pressure MPa	
100	300	5.6	2.0	0.35	0.17	70	
Tank capacity			1.2 ℓ				
Dimension			L 245× H 280× W 145 mm				
Weight			9.0 kg				

DSP-124

Separate Type Promer

**In combination with DSP series pump ,
available for using many tools.**

By using a HP-200M, available for using
attachments of 「HPN-200・250」 series.

Separate Type Promer HP-200M

Item No.		HP-200M	
Rated output		126kN	
Pump pressure (High)		70MPa	
Dimension		L 170× H 85× W 72 mm	
Weight		1.7 kg	

※ Compression head is sold separately. Item No. B-7950

DSPN-120

AC-50A
